PROFESSIONAL PROFILE

An enthusiastic Software Developer seeking an exciting development role. I endeavour to always deliver high-quality code, enjoy new challenges, and am experienced in agile methodologies. I have developed applications using **Vue.js**, **HTML5**, **CSS3**, **JavaScript**, **jQuery**, and **Bootstrap**, as well as other frontend frameworks such as PowerBuilder, C++, Java, and Perl. I hold a First-Class Honours BSc in Computer Science and thrive in collaborative and dynamic work environments.

EMPLOYMENT HISTORY & WORK EXPERIENCE

Aspire Technology: Sandyford, Dublin 18

Position: Frontend Developer **June 2020 – Present**
Main Responsibilities

- Delivered interactive frontend dashboards for internal and external use, including 'Alarm Analytics Dashboards', 'Health Checks', and 'Energy Saving and Consumption Dashboards'.
- Visualized large data sets retrieved from REST API calls within dashboards.
- Developed tools using Vue.js, HTML5, CSS3, and JavaScript in an agile methodology environment.
- Utilized VS Code IDE for development and deployed software via Docker or by connecting to internal and external servers (e.g., AWS) through PuTTY.
- Collaborated with remote teams based in Dublin, Belgrade, and Lisbon, showcasing excellent communication skills and meeting tight deadlines.

Equisoft: Newbridge, Co Kildare

Position: Software Developer **January 2020 – May 2020**
Main Responsibilities

- Developed high-quality code for the Timesheets and Horse Management System.
- Worked within an agile environment to deliver software releases on time.
- Utilized PowerBuilder IDE, Microsoft SQL Server, and SourceSafe for version control.

Aspire Technology: Sandyford, Dublin 18

Position: Frontend Developer **February 2019 – September 2019**
Main Responsibilities

- Delivered interactive dashboards, including Voice and Data Quality Visualizations and Site Alarm Trends.
- Developed tools using HTML5, CSS3, jQuery, JavaScript, Bootstrap, and Perl in agile methodology.
- Deployed software via Docker and internal/external servers (AWS) using PuTTY.
- Worked in a collaborative team environment, often meeting short deadlines.

Position: Software Engineer **August 2017 – January 2019**
Main Responsibilities

- Delivered software to Ericsson's RNC platform, adhering to agile development cycles.
- Executed and enhanced test suites for software deliverables, documenting work and impact of changes.
- Collaborated within a team to gather requirements, implement, test, document, and deliver software at scheduled intervals.

Ericsson Ireland: Athlone, Co Westmeath

Position: Software Engineer Intern **February 2016 – August 2016**
Main Responsibilities

- Developed the BOAT tool, a Java, Swing, and SQL-based application for tracking customer service requests.
- Gathered requirements, coded, tested, documented, and delivered software at defined intervals.
- Demonstrated strong communication skills by understanding and delivering on the needs of the customer support team under tight deadlines.

O'Doherty's Audio and Video Productions: Clondalkin, Dublin 22

Position: VT Technician **September 2006 – August 2013**
Main Responsibilities

- Recorded, archived, and sold horse racing footage on various media formats, editing and adding graphics as needed.
- Promoted to Head of VT Department in 2008, implementing new concepts for archiving major race meetings on broadcast formats and DVDs.

EDUCATION & QUALIFICATIONS

Institute of Technology Tallaght, Dublin 24 **2013 – 2017**

BSc (Honours) in Computing (1.1 - First Class Honours)

Having successfully completed a 4 year degree, I am competent in the following **I.T. Skills**

- Designed, developed, and deployed websites using HTML5, CSS3, JavaScript, AngularJS, and Bootstrap.
- Proficient in Java, C++, C#, SQL, and NoSQL databases.
- Designed, developed, and tested Android applications.

4th Year Project – Android Fuel Logger Application **2016 – 2017**

- Developed a fuel and maintenance cost tracking application for Android phones using Java, XML, NoSQL, JavaScript, and web APIs.

INTERESTS & ACHIEVEMENTS

Keen interest in sports, music, and programming.
